APPLICATION 10/780,037  
ATTORNEY DOCKET 1057-002**

**REMARKS**

**Comments on Statement of Reasons for Allowance**

Applicant respectfully thanks the Examiner for the consideration provided to this application, and for allowing the claims. To the extent that any statements provided as Reasons for Allowance reference any allowed claim without quoting the actual language of that allowed claim, attempt to characterize the subject matter of any allowed claim, and/or actually characterize the subject matter of any allowed claim, Applicant respectfully traverses.

Any cancelled claim is cancelled without prejudice or disclaimer. Any claim amended via Examiner's Amendment has been amended for at least one reason unrelated to patentability, including at least one of: to explicitly present one or more elements, limitations, phrases, terms and/or words implicit in the claim as originally written when viewed in light of the specification, thereby not narrowing the scope of the claim; to detect infringement more easily; to enlarge the scope of infringement; to cover different kinds of infringement (direct, indirect, contributory, induced, and/or importation, etc.); to expedite the issuance of a claim of particular current licensing interest; to target the claim to a party currently interested in licensing certain embodiments; to enlarge the royalty base of the claim; to cover a particular product or person in the marketplace; and/or to target the claim to a particular industry.

**Interview Summary**

Examiner William Miller is thanked for the courtesies extended during the interviews on 1 August 2007 and 30 August 2007, during which the art considered by Examiner was discussed. Based on that discussion, Applicant understands that, in the present application, the Examiner has considered all of the art of record in Divisional Application 11/219,984, which is a divisional of the present application and which has issued as US Patent 7,243,405. Likewise, based on that discussion, Applicant understands that prior to its issuance, the Examiner considered in Divisional Application 11/219,984 all of the art of record in the present application. Thus, Applicant
